

HOPE VIEW SCHOOL

School Food – Policy for Packed Lunches (brought in from home)

This policy guidance has been developed by a group of multi-agency partners involved in reducing childhood obesity, promoting the health and well-being of young people and the provision of catering services in schools.

Additional guidance and advice on providing healthy packed lunches is available from a number of sources including the School Food Trust www.schoolfoodtrust.org.uk

As part of the Government's approach to reducing childhood obesity A Cross Government Strategy for England, *Healthy Weight, Healthy Lives* was launched in January 2008. This strategy outlines an expectation on all schools.

To promote a culture of healthy eating the government now expects all schools – in consultation with parents, pupils and staff to adopt whole school food policies. In particular, schools will be expected to:

- develop healthy packed lunch policies

Introduction

To grow and stay healthy, children need to eat a nutritionally well balanced diet. Schools are an influential setting and can contribute significantly to improving the health and well-being of pupils.

Good nutrition in childhood can help to prevent a variety of health problems, both in the short term and later in life. There is increasing concern that many children are consuming too much fat, sugar and salt and too little fibre, fruit and vegetables.

Packed lunches can contribute to almost a third of a child's weekly food intake and therefore need to be balanced and nutritious.

Aim

To ensure that all packed lunches brought from home and consumed in school (or on school trips) provide pupils with healthy and nutritious food that is similar in quality to food served in schools, which is required to meet national standards.

Rationale:

- Schools are required to positively promote the health and wellbeing of its pupils. Work around healthy eating is a high priority.
- The content of lunchboxes needs to reflect the requirement of schools to meet minimum food and nutrition standards for school meals.
- The contents of lunchboxes in some schools can be extremely unhealthy, recent audits of lunchboxes have shown that in the main they contain foods with high levels of fat, sugar and salt, and very few fruit and vegetables.
- To encourage healthy eating habits from an early age and improve the overall nutrition of pupils
- The short term effects of unhealthy packed lunches and food intake can include poor growth, tooth decay, obesity, anaemia, constipation, poor concentration and behavioural problems which may have an impact on a child's learning.
- The longer term effects of a poor diet in childhood can be an increased risk of stroke, cancer, heart disease and diabetes in adulthood.

Objectives

- To improve the nutritional quality of packed lunches in school and the eating habits of children at lunchtimes
- To develop an awareness in pupils, parents, carers and staff and the wider community that the school takes a pro-active approach to promoting healthy eating.
- To encourage healthy eating habits in childhood that can influence health and wellbeing in later life.
- To ensure that food brought into school (packed lunches) reflects and meets food standards for School Food.

Implementation

This packed lunch policy fits within a wider context of promoting a whole school approach to food and healthy eating.

- Children's packed lunches should include items from the 5 main food groups;

Bread, Rice, Potatoes, Pasta

These starchy foods are a healthy source of energy. Packed lunches should include 2 or more portions eg pasta salad, sandwich.

Fruit and Vegetables

These foods provide vitamins, minerals and fibre. Lunches should include at least 1 portion of fruit and/or 1 portion of vegetables / salad, or more e.g. carrot/cucumber sticks, cherry tomatoes, a piece of fruit.

Milk and Dairy foods

These foods provide calcium for healthy bones and teeth. Include 1 portion at lunch e.g. yoghurt, fromage frais, milk.

Meat, Fish, Eggs, Beans

These foods provide protein for growth. Packed lunches should include 1 portion of these foods e.g. boiled egg as filling in sandwich, tuna as a sandwich filling, mixed bean salad, sliced chicken as a sandwich filling, to name but a few.

Drinks – any drinks provided in lunch boxes **should only** include either plain water, milk (semi-skimmed), unsweetened fresh fruit juice, diluted fresh fruit juice or squash which is low/no sugar content.

Please see appendix 1 for Parent Friendly Guide.

Please support our school by not including these items in a packed lunch:

Foods and drinks high in fat and / or sugar

It is important not to fill up on too many foods that are high in fat and / or sugar at the expense of other more nutritious foods. Limiting high fat and sugar foods will help protect young people from becoming overweight as well as helping prevent tooth decay, heart disease, stroke, and diabetes. This is why sweets, chocolate, crisps, cereal bars, fruit bars, toffee/salted popcorn, squash and fizzy drinks are no longer available in schools.

BANNED ITEMS

To ensure consistency and to keep packed lunches in line with food standards for school meals, packed lunches **should not** contain the following:

- Fizzy / sugary drinks in cartons, bottles or cans
- Sweets / confectionary
- Chocolate spread as a filling for sandwiches
- Sweets
- Chewing gum
- Sugared / toffee and salted popcorn
- Salted nuts
- Energy drinks
- Caffeine drinks

Waste and Disposal

The school will, within reason, send any uneaten packed lunch food items back home. The rationale for this is that parents can also monitor what their child has consumed during the day and then raise any concerns over their child's food intake with the school.

Promotion of Healthy Packed Lunches

There will be ongoing promotion of the need to provide healthy packed lunches through:

- Whole School Packed Lunch Policy
- Health weeks / healthy eating activities
- Curriculum content
- Parents evenings / parent consultations
- School involvement in National Healthy Schools Programme

Packed Lunch Containers

It is the responsibility of the parents / carers to provide an appropriate packed lunch container where food items can be stored securely and appropriately until the lunchtime period.

Parents/carers are advised to include an ice pack in hot weather. Food products prepared and stored in ambient temperatures after a period of time can have increased levels of bacteria in them.

Storage of Packed Lunches

The school will provide storage for packed lunch boxes/bags, in the school lunch cupboard. However, the school cannot provide cooled storage areas and therefore cannot take legal responsibility for foods prepared at home and then brought into school that require chilled facilities.

Dining Facilities for Pupils Bringing Packed Lunch

The school will provide an appropriate area where pupils can eat.

Monitoring and Evaluation

The school will carry out monitoring of packed lunch provision - where there may be concerns over a child's food / nutrition intake and / or content of packed lunches, this can be dealt with timely and sensitively.

OFSTED are required to report on how the school promotes the personal development and wellbeing of all pupils – this may include food provision including packed lunches brought into school.

The Local Authority will work with the school to review packed lunch provision and will provide advice and support to members of the school community.

Schools that have achieved National Healthy School Status (NHSS) may be monitored as part of a national and local quality assurance process.

Policy Review

This policy will be reviewed as part of the schools agreed policy review process. In addition, any major legislative or governmental changes regarding school food may lead to this policy being amended.

Policy Review Date: September 2026
