How to use the risk assessment?

This risk assessment is designed to support schools to monitor and review policy and practice around the Prevent Duty. It is imperative that colleagues in schools understand that Prevent sits firmly within safeguarding, just like any other safeguarding issue. However, the school has full responsibility to comply with the statutory guidance as stated within the Prevent Duty. The risk assessment can be used as a supportive tool to monitor the schools compliance. It would be highly recommended that the risk assessment is reviewed annually.
