#### *Issues to consider*

*A Don't know answer is not a negative response but does show areas where further discussion may help pupils to answer a question e.g. Q1. Pupils might be asked to list the things they enjoy in school and those they don't enjoy, and then consider again – do I enjoy school?*

*No answers to the statements are relatively few and some e.g. Q2 are more 'abstract' and could be explored further in discussion with pupils*

*More discussion about who to talk to if they have concerns, are afraid, being bullied etc. (17% said they were not confident to talk to adult for help)*

*In their 'behaviour management' (skills?) lessons pupils could discuss behaviour in the classroom – what is good, is poor behaviour (just 10% answered no to Q4 but 23% didn't know)*

*Good to see:*

- 83% feel safe and cared for*
- 93% know about keeping themselves on line*
- 83% think the environment is a good place to learn*
- 83% enjoy playtime*
